

**YOUR
BRIGHT FUTURE
IS ON THE HORIZON**

FIATA International Federation of Freight Forwarders Associations is a nongovernmental, membership-based organization representing freight forwarders in some 150 countries. FIATA's membership is composed of 109 Associations Members and more than 5,500 Individual Members, overall representing an industry of 40,000 freight forwarding and logistics firms worldwide.

FIATA is a reference source on international policies and regulations governing the freight forwarding and logistics industry. FIATA works at the international level to represent service providers who operate in trade logistics and supply chain management. Through its FIATA documents and forms, congress, training and publications, it promotes trade facilitation and best practices among the freight forwarding community.

Dr Stephane Graber

Director General of FIATA

Career Opportunities

The logistics and supply chain industry offers diverse job opportunities across various sectors, making it a vital field for ensuring the smooth flow of goods and services. Entry-level roles like Logistics Coordinator, Supply Chain Analyst, Warehouse Associate, and Procurement Assistant provide opportunities to manage inventory, coordinate shipments, and analyze processes. Mid-level positions such as Logistics Manager, Supply Chain Planner, Freight Forwarder, and Operations Manager require skills in leadership, planning, and problem-solving to optimize processes and manage teams effectively. Senior-level roles, including Supply Chain Manager, Director of Logistics, and Chief Supply Chain Officer, involve strategic planning, financial management, and executive decision-making. Specialized roles like E-commerce Logistics Specialist, Customs Compliance Officer, Transportation Analyst, and Cold Chain Specialist cater to niche areas like online retail, international trade, and temperature-sensitive goods.

Skills in demand include proficiency in ERP, WMS, or TMS software, knowledge of Lean Six Sigma, global trade regulations, and emerging technologies like AI, blockchain, and IoT. Industries such as e-commerce, manufacturing, healthcare, automotive, food and beverage, and freight forwarding are actively hiring for logistics and supply chain roles. Certifications from institutions like the Indian Institute of Freight Forwarders (IIFS) can enhance career prospects, providing industry-recognized credentials to stand out in this competitive field.
